RE: UPDATE Nebraska Medicaid Implementation of the National Correct Coding Initiative Edits

Please share this information with professional, clinical, administrative, and billing staff.

This is an update to Provider Bulletin 10-39 issued on September 20, 2010.

Nebraska Medicaid is working with a vendor to implement the National Correct Coding Initiative (NCCI). The targeted implementation of the edits in the Nebraska Medicaid Management Information System is April 1, 2011.

The Center for Medicare and Medicaid Services (CMS) website includes many educational and reference resources about the NCCI methodologies and edits. The CMS NCCI pages can be found at <http://www.cms.gov/MedicaidNCCICoding/> Providers should review the information on these pages and check frequently for updates.

Nebraska Medicaid will continue to publish updates and informational materials as they become available.
